- **Continuous Learning:** Proactively staying updated with emerging technologies and industry trends.

WORK EXPERIENCE

FRONT END DEVELOPER | ZyntricTech , Navi Mumbai

(02/2024)–(02/2025)

Responsibilities:

- Designed and developed user-friendly interfaces using React.js, enhancing user experience and improving data visualization across multiple modules, including StockCRM, SMS Module, ZynOne, and Email Duplicator. Utilized Redux for state management, enhancing application scalability and reducing redundant API calls by 40%. Developed an API-driven filtration system for Excelsheets, facilitating the removal of duplicate entries and enabling admins to view and download processed data in CSV format.

- Implemented Redux for state management, optimizing API calls and enhancing application performance.
- Executed role-based authentication and access control for secure data handling and functionality management across Admin, Superadmin , Team Lead (TL), and Agent roles.
- Enhanced system efficiency by creating reusable components and optimizing code structure, improving maintainability and reducing redundancy.
- Delivered a bulk SMS sending module with data filtration, assignment, and retrieval features, integrating graphical data visualization for better insights.
- Integrated and optimized RESTful APIs, improving backend communication and reducing data retrieval latency by 35%.
- Worked closely with UI/UX designers and backend developers, streamlining workflow by 30% and accelerating project delivery by 20%.

WEB DEVELOPER INTERN | DBI Pvt Ltd, Navi Mumbai

(01/2024)-(02/2024)

Responsibilities:

- Developed a responsive front end for a CRM using HTML, CSS, JavaScript, and Bootstrap5, enhancing user experience and improving data visualization.
- Implemented backend functionalities using PHP and the CodeIgniter framework, ensuring efficient user and lead management.
- Worked on key modules including user management , superuser administration, and lead tracking to streamline business operations.
- Built a responsive front end for a real estate web application using the MERN stack, enabling seamless property search and purchase functionality.
- Gained hands-on experience in website hosting, management, and maintenance, ensuring optimal performance and resolving technical issues promptly to maintain high availability and user satisfaction.

PROJECTS

- Ecommerce Web app with AI image search (React , Bootstrap , Python , FastApi , Html)
- Personal Portfolio (Js , Html , Css , Tailwind Css , React)
